Osu Sensei,

I wanted to take this opportunity to formally thank you for the instruction you have given me over the last three years. Your professionalism and devotion to karate are truly admirable and greatly enhance the real world training that you provide.

The training that I received as a student, first of Kokoro-Kan, and now of Tenkara Karate, has added greatly to my personal self confidence, as well as making me a more fit, healthy, Special Agent of the Secret Service.

Should I ever need to call upon it, I know the techniques and training provided by our Organization will greatly enhance my training provided by the Secret Service, and allow me to succeed at my job.

I highly encourage anyone interested in studying martial arts to become part of Tenkara, and cannot speak highly enough of you, the Sempais, or my fellow students.

Lori and I have made life long friends at Tenkara, and we look forward to continuing those friendships. I still aspire to become a Shodan in Tenkara, and look forward to continuing my instruction at every possible opportunity!

OSU!
